

Peer Teaching Evaluation

Instructor:

Observer:

Course:

Date of Observation:

Date of Interactive Discussion:

Course Overview:

Topics to possibly address

- *What are the learning goals of the class?*
- *What teaching/learning activities will take place?*
- *What have students been asked to do in preparation for the class?*

Class Observations:

Summarize what you observed in class in terms of what the instructor did, what the students did, and the interaction between them.

Topics to possibly address:

- *To what extent do you believe that the class session goals were met (explain)*
- *The instructor is well prepared for class (starts promptly, has an articulated class plan)*
- *The instructor uses class time efficiently*
- *The instructor raises stimulating and challenging questions*
- *The students are engaged in the teaching/learning activities*
- *The instructor provides instruction at an appropriate level / communicates concepts well*
- *The instructor helps students develop skills needed in the discipline*

What Worked Well:

Summarize/Outline what aspects of the instructors teaching, materials, and student interactions worked best.

Recommendations:

Give feedback on areas of improvement or things you observed did not help with instruction.

Discussion on Teaching Skills:

Topics to possibly address:

- *What did the instructor feel went well during the session?*
- *What would the instructor change if he/she were to teach this session again?*
- *What did the instructor indicate was typical or atypical about this session?*
- *Strategies to improve any of the recommendations made.*
